

Kristoffer Lacson

Web Developer

Self-driven and goal-oriented Information Technology student. Compliant to deadlines and dedicated to following instructions. Diligent and adept enough to adjust in any working environment and seeks to contribute to thriving organizations that may further develop me holistically while meeting their goals and needs.

Career Objective

To seek a position with an opportunity for professionalism where I can utilize my knowledge and skills through exposure to new ideas for professional growth, as well as for the growth of the company.

Blueprint Digital Company

GMB Pre-verification and Post-verification member

- Associating each GMB photos with its corresponding geographic coordinates, typically recorded using GPS technology.
- Implement quality control measures to minimize errors in geotagging. Double-check geotagged photos for inconsistencies or outliers that may indicate inaccuracies.
- Use the GMB dashboard to upload the selected and organized geotagged photos. Follow the prompts and guidelines provided by GMB for uploading photos.
- Carefully review and verify the accuracy of the business's Name, Address, and Phone number information listed on the GMB profile.
